Bassam Hayek → basam.hayek@gmail.com

Main results/conclusions

for sustainable tourism buildings + hotels

- be radical, be innovative, be passive (house) & activate sun ☀
- integral planning / Communication within the team!
- regional materials, preserve, re-use
- sensitivity for location
- honour the workers to achieve best quality
- information of guests
- interaction between hotel management ↔ guests
(market provides ↔ guest demands)

⇒ we recommend the use of building assessments (p.e. Klima-aktiv)

Proposal for further activities

keep on doing, providing, experimenting

→ Treat & reuse grey + black water in landscaping or flushing.

→ Consider providing funding
